

FANUEL BAHTA

Full-Stack MERN Developer | SaaS Developer | Product Engineer

✉ fanizig8@gmail.com | +251 932 743 247 | 📍 Addis Ababa, Ethiopia | 🌐 GitHub: github.com/Fanitu

PROFESSIONAL SUMMARY

Full-Stack MERN Developer specializing in business automation software and SaaS products. Conducted over 10 months of research into Ethiopian restaurant, barbershop, and gaming businesses before designing software to solve real operational problems.

Designed and developed production-ready management systems currently used by 13+ restaurants and multiple barbershops, helping automate inventory management, COGS calculation, payroll, commission management, expense tracking, revenue analytics, and business reporting.

Experienced in building scalable web applications using React, Node.js, Express, MongoDB, Socket.IO, and modern JavaScript technologies

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer

Oct 2025 – Present

Designed, developed and maintained production SaaS applications for Ethiopian businesses using the MERN stack.

Key Achievements

Built a Restaurant Management SaaS currently used by 13+ restaurants.

- Developed a Barber Management SaaS that automates payroll, commission calculation, debt deduction and revenue reporting.
- Built a real-time Multiplayer Bingo Platform supporting multiple game rooms, winner validation and multilingual voice announcements.
- Designed complete frontend, backend, database architecture and REST APIs.
- Worked directly with business owners to gather requirements and continuously improve products.

Full-Stack Developer Intern

2024 – 2025

Qemer Software Technology PLC | 2024 – 2025

- Developed React user interfaces.
- Participated in testing and debugging production applications.
- Collaborated with senior developers using modern development practices.

Biology Teacher & Department Head

2021 – 2024

Barentu Bisha Secondary School | 2021 – 2024

- Taught Biology and led departmental academic activities.
- Strengthened leadership, communication and team management skills.

FEATURED PROJECTS

Restaurant Management SaaS

Tech: React • Node.js • Express • MongoDB

- Used daily by 13+ restaurants.
- Inventory and order management.
- Automatic COGS and profit calculation.
- Revenue analytics and expense tracking.

Barber Management SaaS

Tech: React • Node.js • Express • MongoDB

- Automatic commission calculation.
- Payroll and payable management.
- Debt deduction.
- Daily, weekly and monthly reporting

Multiplayer Bingo Platform

Tech: React • Socket.IO • Node.js • MongoDB

- Supports 200+ boards per game.
- Multiple concurrent game rooms.
- Real-time synchronization and winner validation.
- English, Amharic and Tigrinya interface with voice announcements.

EDUCATION

MERN Stack Development Bootcamp

Qemer Software Technology PLC

- 2024 – 2025

Bachelor of Applied Biology

Eritrean Institute of Technology

- 2017 – 2021

TECHNICAL SKILLS

Frontend

- React
- React Router
- HTML5
- CSS3
- JavaScript (ES6+)

Backend

- Node.js
- Express.js

Database

- MongoDB
- Mongoose

Real-Time

- Socket-io

Tools

- Git
- GitHub
- Postman
- Vercel
- Render
